ACCELERATE YOUR LIFE SCIENCES BUSINESS IN DENMARK

INVEST IN DENMARK

We speak business

As the official investment promotion agency within the Ministry of Foreign Affairs of Denmark, Invest in Denmark presents foreign companies like yours with business opportunities that can ensure your company's competitiveness.

We measure our success by how well we contribute to yours. So, if you are considering accelerating your business, by setting up or expanding your life sciences activities in Denmark, make Invest in Denmark your first stop.

Our specialised global staff have the corporate background, industry insight and well-connected networks to advise you on every aspect of locating your business in Denmark. Not just when you set up, but also as your business grows.

Our tailor-made solutions include connecting your company with key local stakeholders, arranging fact-finding tours and providing comprehensive background information needed for your investment decision. We make sense of local legislation and the advantages of locating in Denmark - all free of charge and with full confidentiality guaranteed.

WE START WHERE YOU ARE

Invest in Denmark assists you all the way

The process of expanding a business takes many forms – depending on the type of business, organisational structures, resources and more – all unique to each company.

Whether your company is considering relocating, consolidating, setting up new pro-

duction facilities, establishing R&D facilities or is looking for new innovative partners, Invest in Denmark is the place to start.

Invest in Denmark starts where you are – and assist you all the way to an establishment in Denmark and beyond.

TOP TEN REASONS FOR CHOOSING DENMARK FOR YOUR NEXT LIFE SCIENCES ADVENTURE

1. Political commitment at national level

The Danish government takes active steps to boost the life sciences industry, including the initiation of a national growth plan.

2. A strong healthcare industry

Denmark has a strong, innovative and productive healthcare industry, covering pharmaceuticals, biotechnology, medical technology and eHealth.

3. World-class research standards

Medical and health science is the most prioritised research area in Denmark, accounting for more than a third of all public

investments. Denmark is also a world leader for private investments in drug research and development.

4. Highly qualified labour

In Denmark, it is easy to recruit staff with the right medical expertise at the highest international level. The number of Master's degree and PhD graduates within the healthcare area is growing.

5. Tradition for public-private partnerships

Industry, academia and authorities often join forces. One example is Trial Nation; a public-private partnership focusing on making Denmark the preferred place to conduct clinical studies.

6. Excellent framework conditions for medical research and clinical trials

Denmark offers world-class patient registries, civil registries and biobanks. This provides access to detailed patient data, facilitating epidemiological and pharmaceutical research.

7. Efficient public authorities

The Danish authorities provide fast and service-oriented handling of inquiries from the private sector.

8. Everything you need for accelerating your life sciences business

Denmark offers endless attractive business opportunities for foreign companies

looking to stay competitive. From research and development collaborations, public-private partnerships to the establishment of a European headquarter or high-tech production.

9. A true digitalised nation

Denmark has some of the world's best IT systems implemented at our hospitals and general practice surgeries and we are excellent at taking advantage of digital platforms in our healthcare sector.

10. Attractive to foreign investors

Denmark is characterised by political, economic and regulatory stability and offers a low corporate tax rate, flexible labour market conditions and simple procedures for establishing a business.
